

RoomReady Set

Keep it simple,
functional
and neat.

Our wall-mounted rack neatly houses the conference room equipment behind the display. Installation is faster and easier, and all AV components are easily accessible for servicing. The end result? *Simple, functional, and neat.*

Built Smarter

- ▶ Extremely durable, single-piece 11-gauge steel
- ▶ Can be centered on the wall regardless of stud location
- ▶ Models mount to either 2 or 3 studs

Saves Time

- ▶ Arrives on-site pre-loaded with equipment and cabling
- ▶ Ready to hang and connect to power and data

Services Easily

- ▶ Articulated mounts extend out for tech to access equipment for servicing
- ▶ All equipment in one place — no IT closet or credenza

Costs Less

- ▶ Creates external wall backing for mounting so no need to install backing inside the wall
- ▶ Patented open design allows cooling by in-room HVAC so no need for active cooling system

Stores Equipment Neatly

- ▶ All equipment stored behind the display
- ▶ Standard models accommodate up to 6 Rack Units

Reduces Failure

- ▶ Simple system means fewer component — so less thing to potentially fail

RoomReady Set delivers a simple and consistent solution to the common problem of fitting all those cables and components behind your display.

Pre-built in our assembly facility

Hung on the wall on-site

Easily serviced with the display in place

Two versions to accommodate any room situation:

Standard

For mounting above furniture or in non-egress pathways.

Slim

Can achieve ADA requirements of 4" depth with the use of certain displays. For use in egress pathways and with no furniture under the display.

MODEL	Min. Studs	Dimensions	# of Rack Units	Display Size Compatibility	Additional Required Mount(s)	Display Weight Limit
