

# Video Collaboration for K-12 Education

Video collaboration has the potential to achieve more for K-12 schools than simply the hybrid learning techniques that were meant to deal with a pandemic. The rapid adoption of video collaboration around the world has created a new reality for learning that brings with it big possibilities. Let's explore how video can help you deliver better experiences, improve learning opportunities, and increase class options for students regardless of whether they are in-person, remote, or hybrid.

**Easy to Use**

**Maximizes Facilities**

**Expands Curriculum**

## Benefits of Video in Schools

- ▶ Delivers equitable experiences in-person, remote and hybrid with high quality video and audio
- ▶ Expands curriculum by allowing distance learning opportunities including shared AP classes between facilities and advanced knowledge sharing from experts in the subjects
- ▶ Allows focus on teaching instead of technology because the system wakes up when the teacher walks in the room and the cameras and microphones automatically track and follow the teacher
- ▶ Maximizes facility options by creating instructional spaces in gymnasiums, libraries and other spaces with mobile cart solutions
- ▶ Empowers users regardless of device or location with BYOD solutions
- ▶ Increases user adoption and cost efficiency by working with familiar video platforms (Google, Zoom, Microsoft Teams, Cisco Webex, etc.)

Elementary classroom set up for flexibility with a mobile cart.

Library doubles as a learning space.

High school classroom set up for distance learning and hybrid learning.

## Our Six-Step Process

Through our proven six-step process, we work together to develop a solution that meets your facility's needs from day one. We assemble and test all solutions before they arrive in your building, which means minimal downtime for installation, allowing you to get back to educating sooner

1 Assess

3 Assemble

5 Certify

2 Personalize

4 Install

6 Improve

Are you ready to deliver exceptional video learning experiences for all your students?

Let's talk about the possibilities.
